

Sounder AX03 and AX05

High-volume signalling device with 32 different signal tones

Overview

The AX03 and AX05 sounders are compact signalling devices with a high-volume output and a good directivity. As they are realized according to protection class IP 66, indoor as well as outdoor uses are possible.

The housing is made of ABS. Both sounders are equipped with 32 different tones and therefore suitable for universal use.

Features

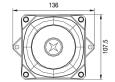

- AC and DC versions
- High sound level of up to 112 dB(A)
- Low current consumption
- Choice of 32 different signal tones
- Steady frequency rate
- Robust and reliable

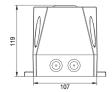

Specifications

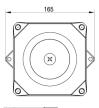

- per an industrialis			
Housing	ABS		
Colour	Red		
Volume	Approx. 100-112 dB(A) (AX05 settable)		
Signals	32 different signal tones, 2 tones may be added externally		
Ingress protection	IP 66 according to IEC 60529		
Cable glands	Not included in scope of delivery		
Connection terminals	Klemmvermögen: 2.5 mm² single-wire 1.5 mm² fine-wire		
Operating conditions	Indoors and outdoors		
Operating position	Preferably horizontal with cable glands facing downward		
Operating mode	Continuous operation		
Temperature range	-25 °C to +70 °C
